TELECOMMUNICATION SATELLITE
AND ELECTRONIC INDUSTRIALISTS
BUSINESS PEOPLE ASSOCIATION

International 'Low Earth Orbit' Cube and Small Satellite Conference & Seminar

*Undoubtedly we must
restructure at an international
level, focusing on the key
opportunities and new
technologies offered by the
small satellite technologies.*

*You should
join us!*

The Low Earth Orbit
Cube and Small Satellite
Conference & Seminar will
be one of the most important
conferences and seminars to
be held in our country with
international participants.

In this conference, we will
review the small satellite
ecosystem and the latest
developments and evaluate
the innovations and
opportunities presented to
us. We will create a platform
to explore new directions
and learn new technologies
for design and development
of small spacecrafts. In the
conference, we will discuss
business development
models and methods of
opening up to the world with
scientists, industrialists,
pioneers of the defense
industry and expert
academicians.

This conference will pave the
way to build a new
environment to listen, talk,
meet, learn together,
increase business
collaborations and establish
an international ecosystem.

EXHIBITOR & PARTICIPANT PROFILE

Companies that manufacture, develop and sell national and international satellite technology

Satellite Operators

National and international senior government officials

Defense industry officials

Regulators

Telecom operators

Data centers

Cyber security, communication, observation, sensor software and hardware developers

Academics working in relevant departments of universities and technoparks

Students and young entrepreneurs studying in relevant departments of universities

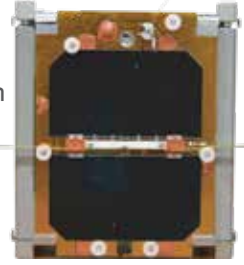

Ecosystem-based initiatives

Non-Governmental Organizations

CONTENT OF THE PROGRAM

- Usage areas of small satellites
- Determination of market needs in the country and the nearby region
- Evaluation of possible projects
- Developments in small satellite and cubesat technology
- Small satellite ecosystem, parts and missions
- Requests for low orbit satellites to serve our country
- Satellite platform design and main components
- Small satellite payload design
- Satellite launch activities and possible collaborations
- Small satellites and defense industry
- Cubesat and branching studies
- Requirements for production in our country
- R&D activities
- Studies carried out by our companies in our country
- Leaders of the industry and studies carried out in the international arena
- Satellite earth stations, ground terminals
- Satellite control centers
- Regulation, coordination and frequency needs
- Possible collaborations in satellite, space and defense industries
- Installation and commissioning of ground terminals.
- Studies at universities, laboratory-university-industry collaborations
- Decommissioning of satellites
- Cyber security
- Country sovereignty rights and traffic control
- Possible collaborations in interconnection-access-telecom networks

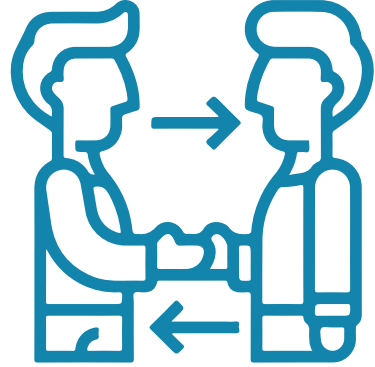

WHAT AWAITS PARTICIPANTS & EXHIBITORS?

CONFERENCE

A conference program that will be conducted with the participation of experts and academicians working at national and international arena on small and cube satellites.

B2B

Opportunity to meet and communicate with industry partners for many collaboration occasions

SEMINAR

Seminar program with participant certificates, that will include a training session on installation, commissioning and sales of Low Earth Orbit (LEO) satellites, ground terminals and VSAT stations

SPONSORSHIP

SILVER

- ✓ 15 sqm Exhibition Booth
- ✓ 1 Session Hosting
- ✓ Ownership of Dining Area Coverings
- ✓ Brand Usage in All Visual Works

GOLD

- ✓ 20 sqm Exhibition Booth
- ✓ Opening Speech
- ✓ Keynote Session Hosting
- ✓ 1 Session Speaker
- ✓ Brand Usage in Main Saloon Coverings
- ✓ Brand Usage in All Visual Works

BRONZE

- ✓ 12 sqm Exhibition Booth
- ✓ 1 Session Hosting
- ✓ Ownership of Seminar Area Coverings
- ✓ Brand Usage in All Visual Works

BREAK & B2B

- ✓ 6 sqm Exhibition Booth
- ✓ Ownership of Break Area or B2B Coverings
- ✓ Brand Usage in All Visual Works

The brands of our Gold, Silver, Bronze, Break & B2B, Transportation and Accommodation sponsors will appear on the main stage and in the printed documents of the organization.
